

## RAIL STOCKS FOREMOST FEATURES ON EXCHANGE

Standard Industrials Dull—Call Money Abundant—Pools Cautious.

New York, March 15.—Rail were the foremost feature of this week's moderate stock market, being sentimentally influenced by the adoption of the administration's bill giving the government definite control of transportation.

Reading was the strongest issue, leading the advance at the year's highest quotation. The technical position of this stock, with its small floating supply, and the improved status of coalers prompted extensive covering of short contracts.

The substantial freight increase granted the railroads in eastern territory, including coal carriers, came as an agreeable surprise to the railroad executives, few of them, it is said, expecting such action at this time.

Standard Industrials, notably United States Steel, were dull and little change, pending an adjustment of the existing price schedules by the war board. Coppers and other commodities suffered restraint from similar causes.

Pools pursued their operations with greater caution, but oils, motors, tobaccos and other specialties made more or less substantial headway, without eliciting outside interest or support.

Call money was more abundant and banks bought freely of commercial paper, mostly at 6 per cent, but time funds for speculative purposes continued scarce.

The only feature to foreign exchange was the sharp recovery in lire, due to stabilizing methods adopted by the Italian government.

## ENEMY OFFICER DIES AFTER RAID ON PARIS

Dramatic End Related—Only Obeyed Orders in Dropping Fatal Bombs.

Paris, Wednesday, March 13.—Capt. Schoeber, of Munich, who was aboard the bombing Gotha brought down at Esnes, in the department of Seine-et-Oise, on Monday night, met a dramatic end. His two companions were burned to death, but the captain managed to extricate himself from the blazing machine and to run away from it. A French soldier saw him and rolled him on the ground to extinguish his burning clothing.

Gen. D., commanding the lines of communication, was passing in an automobile and took the captain to a hospital, where his condition was found to be hopeless. Although suffering severely from burns on all parts of his body, Capt. Schoeber showed extraordinary self-command in answering questions of Gen. D.

"You had a mission to perform. Had you accomplished it or were you about to do so?" asked the general.

"I had already accomplished it, general."

"You went to Paris?"

"Yes, general."

"But, wretch, you have killed women and children," cried the general.

"I had my orders," was the reply.

Capt. Schoeber died of his injuries during the morning.

## SCOUT TROOPS ORGANIZED

Deputy Grand Commissioner Reviews Scout Work Here.

Deputy Grand Scout Commissioner Chas. A. Birch, of Baltimore, was in Chattanooga for a few hours Thursday and reviewed the Boy Scout work here. His visit was very much appreciated by Scout officials, and his timely suggestions helpful.

Members of troop I were issued the manuals on war savings stamps and the red postcards which have been especially printed by the government printing office for the Boy Scouts, and began their troop thrift and war savings stamp drive in Chattanooga. Much enthusiasm was shown, and it is expected that they will be able to make good reports on their work by next meeting. In the troop's continued growth it will be in excellent condition for the third liberty loan campaign.

On Tuesday night at the Second Presbyterian church Troop 3 was organized with fourteen members. M. L. Mulkey has been appointed scoutmaster, with Z. R. Umbarger and C. G. Fowler as assistant scoutmasters. Fred Gray was elected scout scribe. Manuals on war savings and thrift stamps and the red postcards, prepared by the government printing office were issued to the boys. The troop is composed of the following members: Edward Anderson, Fred Gray, Burt Agnew, Ernest Hood, Ed Anderson, Leonard Bearden, Fred Grayson, Herald Huggins, Herbert Hood, Paul Bush, Harry Gilbert, Jack Holly, Lester Allison and William Nichols.

One of the most lively and promising troops in the city was organized Thursday night in North Chattanooga at St. Paul's M. E. church. Fifteen boys were present and applied for membership. Rev. Alwyn Atkins was appointed scoutmaster and Frank Beck and Edwin Conner assistant scoutmasters. Rev. O. E. Gardner, John S. Fletcher and Noble Simons will be the executive committee. E. W. Arnold was elected scout scribe. The troop, which is Troop No. 9, will meet on Friday nights in St. Mark's M. E. church. The first patriotic work the boys will be given will be to distribute government literature. The troop members are as follows: E. W. Arnold, H. D. Henderson, R. G. Hoppe, R. S. Saddle, T. H. Newman, M. L. Holt, R. E. Reeves, V. E. Brown, E. S. Beck, F. M. Voigt, R. J. Hoppin, Hale F. R. Foster, A. B. Hughes and E. M. Thompson.

There will be a meeting tonight (Friday) in the First Presbyterian church in the interest of scouting. All boys of that Sunday school and section of the city are invited to attend this meeting. William Troutt will be appointed scoutmaster of the troop organized there, which will be Troop No. 2. The meeting will be held at 7:30 p.m. in the church chapel.

Several of the Boy Scout troops are canvassing their section of the city securing subscribers for "Camp Life," the new Chickamauga camp pictorial magazine, published in Chattanooga. The commission for which will be turned over to the local council.

Troops 5 and 6, which met at the Park Place Presbyterian church last Monday night, had two popular speakers present at visitors. Col. Patrick, who is in charge of the military battalion at the City High school, spoke to the boys on "Discipline," and ex-Scoutmaster Bonebrake, of Milwaukee, who is a member of the medical corps at Fort Oglethorpe, told many of his happy experiences while in the scout work. Several of the members stood the second class examination.

## America Means Business, Declares London Paper

London, March 15.—Under the heading "America Means Business," the Daily Mail, in referring to the bill, authorizing the sale of German property in the United States, declares editorially:

"The vigor and directness with which President Wilson and his advisers are settling about this essential business are smashing blows to Germany. They show, too, how rapidly the American government and people are taking the measure of their enemy. They know that every economic weapon, which the allies possess, singly and collectively, must be brought into play."

Alluding to the German property affected by the bill, the newspaper continues:

"We may be very sure that this property, or the proceeds of it, will be held by the United States until the American claims against Germany are satisfied."

An early test of the new ship was requested to settle remaining question as to her strength and behavior in a heavy sea. A report on the launching said that the hull had been strengthened by concrete construction could be depended upon.

Mob violence was openly threatened during Enterkin's trial at Vidalia last fall and feeling ran so high throughout the river parishes of North Louisiana that a guard of soldiers was sent by Gov. Pleasant to guard the courthouse and to escort the prisoner to Natchez, across the river, each night.

Enterkin was accused of shooting and killing John A. Wurster about a year ago in the latter's saloon at Jonesville. Robbery was said to have been the motive.

## MUSTER BOY SCOUTS

Washington, March 15.—Boy Scouts of America were mustered yesterday into the army of workers for the third liberty loan by request of President Wilson. Descriptions to the loan will open April 6.

"As in the two previous campaigns," wrote the president to Colin H. Livingston, president of the Boy Scouts' organization, "it is desired to have the Boy Scouts of America serve as gleaners in a house-to-house canvass after the reapers, gleaming through the days set aside for your special campaign."

"It is my earnest wish that every troop of Boy Scouts and every scout and scout official take part in your war service activities and especially in these liberty loan campaigns. Not only is this of practical service to your country in these critical times, but it is of great educational value to the boys in preparing them for the responsibilities of citizenship."

The scouts hope to break their record in the second loan of obtaining subscriptions, \$102,000,000 of bonds, through a well organized campaign.

The first of the legitimate bookings that the Lyric Amusement company has are promised for the Lyric, comes Saturday, matinee and night, when "Neil O'Brien himself," camouflaged in burnt cork, brings a new line of minstrel merriment and tuneful songs to set Chattanooga whistling for weeks to come. O'Brien needs no introduction to local audiences. In the days when Chattanooga really had some shows, O'Brien's minstrels used to sandwich in along with the season's schedule. This year he brings an entirely new production and is supported by a clan of finished minstrel men and singers. A feature of the program is a sketch in the second part, written by the minstrel man himself, which is a burlesque on the "Secret Service" and is said to be a "scream."

He admitted, however, that he had acted as agent for German interests in wool purchases after March 26, 1915, the date on which American wool manufacturers voluntarily submitted to regulations imposed by the textile alliance, incorporated, a quasi-official agency created at the instance of the British government to control consumption of textiles from British colonial possessions so that none of these materials would reach Germany.

## CONGRESSMAN'S WIFE MAY GET FORTUNE

Mrs. E. W. Austin Claims Half Interest in Mineral Rights on Big Tract of Land.

Washington, March 15.—By her father retaining one-half interest in mineral rights to an 800-acre tract of land which he sold in East Tennessee near Cleveland soon after the Civil war, and which has now become vested almost solely in Mrs. E. W. Austin, wife of the congressman from the Second Tennessee district, Mrs. Austin finds that a good-sized fortune is now almost within her reach.

Mrs. Austin's father was James L. Morrison, a large landowner of lower East Tennessee. He had an abiding faith in the mineral resources of the eastern section of the state, and concluded that it was rich in iron, coal and barytes. So, when he disposed of the tract of land in which he had such confidence he retained one-half interest in all minerals contained therein. Since then barytes mines have been opened extensively on the tract and the war has greatly increased the demand for barytes.

The governor also telegraphed to San Francisco, from which fifty members of the Idaho national guard were ordered to leave immediately for St. Maries on a special train.

AUSTRIANS HEATEDLY ACCUSE EACH OTHER

Washington, March 15.—An official dispatch from Zurich says tumultuous scenes occurred last Wednesday in the Austrian chamber on the discussion of the food situation. They were provoked by the Austrian Teutons, who accused the Czechs of wanting to starve Austria. When a Czech orator declared that Prague had no flour, no potatoes, no wine, no milk and no eggs the Austrian cried, "We have not any either," and Pan-Germanist Member Wolf said:

"You are the allies of England."

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little zemo, obtained at any drug store for 50c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Rose Co., Cleveland, O.
